# Guide de Tailles de Bagues

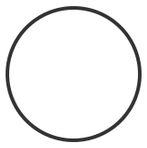

**Comment utiliser ce guide :**
Imprimez cette page à l'échelle 100% (sans mise à l'échelle automatique). Essayez chaque bague circulaire sur votre doigt. La bague qui s'ajuste confortablement (sans trop de jeu, sans être serrée) correspond à votre taille. Pour plus de précision, testez plusieurs fois et à différents moments du jour, car la taille des doigts peut varier légèrement.
